With modern LED lighting the installation process is easier than ever, but effective and beautiful outcomes begin in your shop. This presentation will equip you to satisfy your customer's needs for lighting, and will further demystify LED lighting.

4LIFE TRANSFER FACTOR

EDUCATING AND BALANCING YOUR IMMUNE SYSTEM

- Our own bone marrow contains little molecules that are educated by the diseases we have overcome and by the factors we received when our mother gave us of her colostrums. These molecules are identical to Bessie, the cow's. What if we could borrow Bessie's big immune knowledge and further educate our own immune system?
 - Come find out what happens when we transfer her factors to our cells.
- EDUCATE YOUR IMMUNE SYSTEM
- RAISE NATURAL KILLER CELLS (important for fighting off "bad guys").
- BALANCE AN OVER OR UNDER ACTIVE IMMUNE SYSTEM
- Transfer Factor is in the Physician's Desk Reference (Drs Bible)
 - Russia asks all Doctor's to try Transfer Factors before using drugs, due to a 3 year study.

Demond Crump CEO and Founder of Jewel Pads

Our mission is to raise awareness by informing both teens and women globally who suffer in silence with pain, heavy bleeding, unhealthy menstrual cycles and the potential toxicity of sanitary napkins and tampon use. Our goal is to bring light to a taboo subject of female cycles that has silenced females from all culture for many years.

The silent suffering stops with the voices of our campaign.

The Jewel Innovation:

- 1. Jewel Sanitary Napkins have a soft cotton design, with a 3 dimensional layer, and leak guard sides for extra protection.
- 2. The Jewel Innovative design offers "Nobel Prize" graphene strip.
- 3. Our Innovative technology is adept so you stay dry.
- 4. Jewel Sanitary napkins are designed for super absorbency, absorbing up to 10 times more menstrual flow than traditional sanitary napkins offering even more protection.

Come out and see a demonstration of this life changing product for females globally and come learn how this company has earned \$1.5 million from a \$6 product in 6 months.

A tradition of exceptional people doing exceptional work

Goshen Hospital is excited to announce that for the **fourth time**, we've earned Magnet® designation from the American Nurses Credentialing Center. When it comes to nursing excellence, Magnet designation is the **highest, most prestigious honor** a health system can receive — **and only about 60 hospitals in the world have earned it four times**. Our level of excellence far exceeds what most hospitals can achieve — locally, regionally, nationally and internationally.

At Goshen Hospital, we're proud of our Colleagues and the exceptional care they provide. But most of all, we're grateful for the opportunity to care for our friends, neighbors and community — every single day.

Here's what our customers are saying:

"This stuff works. I've tried other brands of CBD and didn't feel a difference. But with my joint pain, back pain and knee pain I get relief. I carry it in my purse wherever I go. It's a great product with no side effects." M. Byler, TN

PS: "Our son was put to sleep to have 5 teeth cut out. After waking up with intollerable pain, we used 1500MG CBD in his mouth and had immediate relief."

"This is a great product. When I get off my chair and start walking normally instead of first cramping until I limber up at age 56. It feels good to feel younger again. We appreciate the pure product. I hope you keep it that way." A. Z., KY

"My husband has Parkinson and was diagnosed in 2011. He's 61 years old and using Yoder's True Nature 1500mg CBD oil for 1 month now he can put n his own coat again, and also sleeps better at night in bed instead of on a recliner. Praise God!" H. M., Delaware

Let not your mind run on what you lack, as much as, on what you have. Of things you have, select the best, and then reflect how eagerly you would seek them, as if you did not have them.

<u> Rest-Relax-Rejuvenate-Refresh-Renew-Repair-Rest</u>

Rest Before You're Tired

Everything in your outlook on life changes if you aren't tired; you're better at everything when you feel good. You can possibly do more than twice as much work So, give yourself a break, for every hour of work take ten minutes off for some R&R; taking deep breaths, letting go, and relaxing-go limp as an old sock-even take a snooze. Remember, a tense muscle is a working muscle, life isn't just about getting there, it's also how you're getting there. Focus on a plan...get the big picture, and develop great healthy work habits by resting before you're tired. Smile!
