## Seminar Topics

### ***“Pricing and Profitability” by Ken Nisly***

#### ***The Life and Death of a Business***

Most business owners can get motivated at the thought of increasing profitability. However, wanting to be profitable and actually achieving profitability are two different things. Learn how to make your company more profitable.

### ***“Effective Selling” by Steve Miller***

#### ***Converting Browsers to Buyers***

“I’m just looking.” We’ve all said it. You’ve probably heard it often. So, how can we turn “browsers” into buyers? How do we turn phone calls into profitable engagements?

***We would love to chat! Stop by our booth.***

***Guidance to transform your business***

met its match!*

**Join us for seminars on:**

**Friday at 3:00  
Saturday at 8:00**

**Demond Crump  
CEO and Founder of  
Reign Pads**

**Our mission** is to raise awareness by informing both teens and women globally who suffer in silence with pain, heavy bleeding, unhealthy menstrual cycles and the potential toxicity of sanitary napkins and tampon use. Our goal is to bring light to a taboo subject of female cycles that has silenced females from all culture for many years.

**The silent suffering stops with the voices of our campaign.**

**The Reign Innovation:**

1. Reign Sanitary Napkins have a soft cotton design, with a 3 dimensional layer, and leak guard sides for extra protection.
2. The Reign Innovative design offers "Nobel Prize" graphene strip.
3. Our Innovative technology is adept so you stay dry.
4. Reign Sanitary Napkins are designed for super absorbency, absorbing up to 10 times more menstrual flow than traditional sanitary napkins offering even more protection.

**Come** out and see a demonstration of this life changing product for females globally and come learn how this company has earned \$5 million in revenue from a \$6 product in 18 months.

ASME certified for  
boilers and pressure  
vessels.

In a conventional system, approximately two-thirds of the fuel burned to generate power is lost as heat. Our engineered heat recovery systems allow you to capture thermal energy from your exhaust, engine jacket, and oil cooling systems. This recovered heat can be utilized to produce hot water or steam for a wide variety of useful applications such as heating and processing.

Use our proven technologies to save money and improve performance efficiency.

# MOWING MADE EASY - ROTARY DECK MOWER

*What does a GRASS HIPPO eat?*

**ANSWER: GRASS, WEEDS, AND LIGHT BRUSH.**

**Ervin:** Good to see you out here; Grand father.

**Grandfather:** Yes. It's good to be out. I like seeing a good team of horses out working.

**Ervin:** I bought this 7'6" Grass Hippo rotary mower. It cuts a lot of grass in a hurry. I cut the weeds in the old orchard beside the equipment shed. That made it work but it got 'er done.

**Grandfather:** Could you get those tight corners with out using the skid steer?

**Ervin:** No problem; thanks to the cut out in the mower deck for the cart wheel to turn sharp.

**Grandfather:** It has all the bells & whistles. It must have cost you good money.

**Ervin:** I don't mind shelling out money on a good investment. It is built for 30 years of work. That is 10 years longer than mowers you can buy for \$3,000 less. The cost is the same per year, and it is a better mower.

**Grandfather:** You are a chip off the old block. I know you always buy quality. How will you get a return on your investment?

**Ervin:** I spoke with the church men. Most of them said they are happy to pay me \$30 an hour to rent a Grass Hippo. And they can spread the word around the community for more people to rent.

**Grandfather:** You are giving your horses exercise at the same time you are clipping weeds in the meadow. That's good.

**Ervin:** It made my decision to buy when I heard from other people how easy Suplee Hollow Machine is to work with. Their shop is set up for one piece flow, lean manufacturing. I was able to order options without adding to the lead time. They build the mowers one at a time exactly to each customer's specs. They stand by their mowers. If I'm not satisfied after my first season, they will take it back and return all my money.

**Grandfather:** Wow, it's always fun to watch a good team of horses out working in the community. You have work horses.

Would somebody with only road horses be able to use a Grass Hippo?

**Ervin:** The 7'6" is a drag for road horses to pull for several hours, but they have smaller models. Abner with Suplee Hollow is helpful in making sure people purchase the model best suited for them.

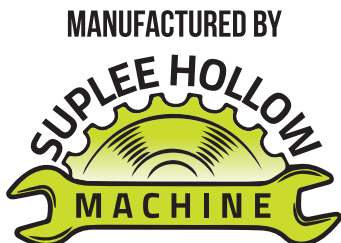

**Grandfather:** I know what I'll do. I'm gonna spread the word that there is a practical horse drawn mower available.

**Ervin:** Tell them Suplee Hollow Machine is giving a **FREE BATTERY** to the first ten people who order a mower.

**Yoders Nutrition Hemp Pellets benefit are?**

Here is one of the many examples of what our customer are seeing. Trainers are super excited with the success in enhancing the behavior, condition and performance of their clients' horses. Today we are providing you with a before and after of one individual, many of you, especially dealers and trainers know this horse very well "Erie Sanota #1LM46", Sired by Kadabra from Repeatedly, showing up at the sale to be resold once more and become another man's problem. One of the previous owners made this comment, ***"When I owned her I threw the whole book at her trying to get condition and performance out of her. I tried almost every mineral and horse supplement in the horse industry with little to no success."*** Here's a testimony from another previous owner, ***"When I saw this mare again at the Memorial Trotting Sale, I couldn't believe the condition of the mare. There was a great job done in figuring out what the mare needed to make this change."*** NF, PA. To sum this up, the mare had digestive and soreness issues and yes, you guessed it Amos was feeding CBD Hemp Pellets. So help yourself and your horse to be experiencing the difference. To be noted, this mare in here many entrances to the sale ring never was sold for more than \$13,000 until this last time of pleasing her owner and trainer with \$22,000.

## **FUCOYDON**

FuCoyDon® is an extremely potent, bio available, restorative, liquid supplement which researchers proclaim may be the greatest source of support for intensive regeneration at a cellular level. It contains a remarkable natural enlivening invigorator, Limu Moui, that contains the active component fucoidan. This magical component of brown seaweed boasts 1000+ scientific studies that can be found in the United States National Institute of Health, Library of Medicine

## **AGE**

The AGE Pill™ provides three classes of advanced, specialized super-nutrients to the stem cells to delivering intense support for:

1. Removing glycation plaque buildups that inhibit intercellular proteins.
2. Reduction/removal of toxins and cellular sludge resulting from biological activity creating lipofuscin.
3. Significantly increasing ATP-providing Biological Hydrogen to greatly amplify cellular electrical energy. Theoretically, this process could increase electrical energy within the stem cells three or four-fold, to where you may “feel like you were 20 again!”.

## **COFFEE**

When combined with a rich blend of Chaga, Gotu Kola, Bacopa and organic Ganoderma extracts, it creates what Sisel believes is the healthiest, best tasting and most beneficial coffee available today. Available in grounds or instant.

# DPA HEART SCREENING

Find out the AGE and CONDITION of your arteries.

In less than 3 minutes, the Digital Pulse Analyzer (DPA):

- Checks biological age of heart
- Checks artery flexibility
- Grades arteries from A to G.
- Checks for plaque build up

Designed to detect potential underlying cardiac disease.

This FDA cleared, device uses a finger probe to observe the changes in pressure, blood flow, velocity and profile throughout the whole pulse wave.
